TDG 2,500 Allocation — Submission Proof

TrueSight DAO LLC · Próspera ZEDE, Roatán, Islas de la Bahía, Republic of Honduras

Resident Permit No. 86901452542528

This document records the cryptographic proof of a signed contribution submission to the TrueSight DAO ledger. It is independently verifiable at https://dapp.truesight.me/verify_request.html

1. Submission identity

Field	Value
Event ID	Edgar_20261109114916_3064
Submitted At	2026-11-09 11:49:16 UTC
Event Type	CONTRIBUTION EVENT
Type	USD
Amount	2,500
Contributor(s)	LVSS Negócios Internacionais Ltda (Flow Vista)
TDG Issued	2,500.00
Intake Ledger	Main Ledger — Telegram Chat Logs, row 14775
Intake Status	Accepted and written by Edgar
Submission Source	https://github.com/TrueSightDAO/truesight_autopilot
Author	Sophia Truesight (admin+sophia@truesight.me)
Authorised By	Governor Gary Teh, 2026-11-05

2. Contractual basis

Clause	Amount	Mechanism	Status
3.1(a)	USD 1,000.00	Bank transfer / PIX, BRL 5,027.70 @ 5.0277	PAID 2026-11-05
3.1(b)	USD 2,500.00	TDG allocation	THIS SUBMISSION

Instrument: Service Agreement for Brazilian entity formation and foreign-investment structuring between TrueSight DAO LLC and LVSS Negócios Internacionais Ltda (CNPJ 52.105.115/0001-44), ClickSign-executed 2026-10-27.

Document reference: 634aba92-9895-4ba7-a074-717b969b5143

Signed document: https://github.com/TrueSightDAO/tokenomics/blob/main/receipts/2026/20261105_lvss_vista_flow_service_agreement_signed.pdf

3. Quantity and valuation

Term	Value
TDG quantity	2,500 TDG
Valuation	1 TDG = USD 1.00
Notional discharged	USD 2,500.00
Effect	Discharges the USD 2,500.00 obligation in full, irrespective of TDG market price at settlement

Valuation pinned by governor directive (Gary Teh, 2026-11-05).

Contractual basis for quantity/valuation — LVSS representative Vini Bitencourt, in writing:

> "Our team would be happy to accomodate Agroverse with USD1k and USD2.5k in TDG tokens for brazilian entity and FDI set up"

4. Submission description as recorded

USD 2,500 leg — Clause 3.1(b) of the Service Agreement for Brazilian entity formation and foreign-investment structuring between TrueSight DAO LLC and LVSS Negócios Internacionais Ltda (CNPJ 52.105.115/0001-44), ClickSign-executed 2026-10-27, document reference 634aba92-9895-4ba7-a074-717b969b5143.

Quantity and valuation pinned by governor directive (Gary Teh, 2026-11-05): 2,500 TDG at 1 TDG = USD 1.00, discharging the USD 2,500.00 obligation in full, irrespective of TDG market price at settlement.

Contractual basis for quantity/valuation is LVSS representative Vini Bitencourt in writing: "Our team would be happy to accomodate Agroverse with USD1k and USD2.5k in TDG tokens for brazilian entity and FDI set up."

The USD 1,000.00 leg under Clause 3.1(a) was settled separately via Pix R$5,027.70 on 2026-11-05 (Main Ledger r5356, Pix ID E68900810202611051629T0MBVf1Q6E).

Open: LVSS to designate the ledger record for registration per Clause 3.2.2; a submission pending scoring is not a registration.

5. Signer public key block

This is the value recorded in the submission's "My Digital Signature" field. It is the submitter's RSA-2048 public key block — the material a verifier uses to check the signature over the submitted payload. It is not itself a signature.

7. Verification instructions

1. Open https://dapp.truesight.me/verify_request.html

2. Paste the submission text (section 4, followed by the public key block in section 5 and the Request Transaction ID in section 6, in the recorded field order).

3. The verifier reconstructs the signed payload, checks the signature against the public key above, and confirms the Request Transaction ID matches the recorded event.

4. The row is also human-readable in the Main Ledger, Telegram Chat Logs tab, row 14775.

8. Scope and limitations — read before relying on this document

Does: records that a signed CONTRIBUTION EVENT for USD 2,500 with TDG Issued 2,500.00 was accepted by Edgar and written to the Telegram Chat Logs intake ledger as Edgar_20261109114916_3064.

Does NOT: constitute registration of the TDG allocation. Clause 3.2.2 of the service agreement provides that a mere promise of future issuance, allocation or transfer shall not constitute payment. The allocation only discharges the obligation once it is registered in the ledger record designated by LVSS.

Pipeline note: the TrueSight DAO contribution scoring pipeline has issued no TDG since 2026-09-13. This submission is therefore pending scoring at the time of writing and will not appear as an issued TDG balance until that outage is resolved. The submission is recorded; the issuance is not yet materialised.

9. Open items

1. LVSS to designate the ledger record for registration, as clause 3.2.2 requires.

2. Both Parties to confirm in writing the par of 1 TDG = USD 1.00 and the full-discharge effect.

3. Clause 3.3 contemplates a monthly payment indexed by INPC for continuous legal operations and legal representation, but states no amount, scope or start date. To be priced and scheduled explicitly.

4. LVSS to issue the nota fiscal for BRL 5,027.70 against the 2026-11-05 PIX.

5. TrueSight DAO to resolve its scoring pipeline outage and confirm registration to LVSS in writing.
